

PRIMROSE LEAGUE

Premier Balfour Defines Attitude of England.

NO HOME RULE FOR IRELAND

Predicts the Downfall of All Parties Opposed to the Union Party on Account of Its Attitude on the Disestablishment of the Church.

London, May 6.—Premier Balfour, in his speech at the annual meeting of the Primrose league, defended all the acts of the unionist party, and said that the sole weapon of the opposition consisted in motions for censure of the government, which would come before another parliament. He predicted that the country would never return the liberals to power while the latter upheld the disestablishment of the church and home rule or made any attack upon the union of England and Ireland in the disguise of the scheme known under the name of evolution which was a dangerous step in the direction of breaking up the United Kingdom.

Briefly, the Dunraven, devolution scheme proposed to remove from the immediate control of parliament certain functions connected with purely Irish business and for administrative control of purely Irish finances, the house of commons having the right of veto. For this purpose it was proposed to create a financial council of 24 members, 12 to be elected by groups of existing parliamentary constituencies and 12 to be named the council which is to be under the presidency of the lord lieutenant and the vice presidency of the chief secretary for Ireland. It was also proposed to create an Irish body selected from Irish members of the house of commons and which should deal with business relating to Irish affairs.

RATES ADVANCING.

Russian Fleet Makes Insurance Rates Advance.

San Francisco, May 6.—Now that there is a possibility of the Russian fleet turning up almost any day in oriental waters, the rates of marine insurance covering war risks on vessels playing between this port and Japan have risen considerably and will continue to rise as the risk of capture assumes larger proportions. Up to the present time, except when the first Russian fleet was hovering over the coast of Japan, the minimum rate, one-eighth of one per cent, has been obtainable. But with the approach of the two squadrons from European waters this has been advanced until the rate today is 2 per cent for May sailings. The rate for neutral ports, such as Hong Kong and Shanghai, stands at 1 per cent. Shippers are evidently expecting a much higher rate, for they are trying to cover on future sailings.

SHIPPING NEWS.

The steamer Alliance, Capt. Hardwick, master, arrived yesterday afternoon from Eureka and Coos Bay with a full list of passengers and considerable freight. She discharged a lot of cedar lumber and miscellaneous freight at the Callender dock and left up the river for Portland, where she expects to go on the dry dock and will sail on return trip Thursday. The Alliance encountered nasty weather between Eureka and Coos Bay, but had pleasant sailing between Coos and this port. The steamer Toledo left Coos Bay Friday morning and the officers on the Alliance were surprised she had not shown up yet.

The American Bark Hecia, Capt. Ed Nelson, master, arrived in last evening and will load lumber for Manila at some of the up river mills.

The steamers South Bay and Aurelia are scheduled to leave San Francisco for this port.

The steamer Elmore arrived in last evening from Tillamook with a good cargo of freight and list of passengers. Among her passengers were J. E. Sibley and wife, formerly manager of the Truckee Lumber Company's plant at Hobsonville, but now in charge of the same company's plant at Truckee, Nevada.

The steamer Edgar, which has run for years on Wallapa harbor has been sold by the Simpson Lumber Company to L. C. Soule and has been taken to Grays harbor.

It is reported that Capt. McFarlane, who is in charge of the steamer Elder, may make another attempt to float her.

The steamer Sheridan sails today for San Francisco with a cargo of 500,000 feet of lumber.

A barkentine was reported outside late yesterday afternoon. It is probably the Chehalis, now out over 100 days from Manila. She will probably be brought in today.

Steamer Oregon may go on the run between Nome and Seattle when replaced on the Astoria-San Francisco run by the St. Paul, which is now about ready for commission. The Oregon is owned by the White Star Company, by whom she was chartered to the San Francisco & Portland Steamship Company.

The contractors having the removal of the Challenger wreck in hand, at South Bend, have at last succeeded in getting a coffer dam to stick on the after hatch, and as soon as they can flash up their engine, pump and other fittings, which dropped into the bay when the dam fell and broke off an end of the scow a few days ago, they will start to pump out the hold and thereby expect to raise the sunken ship.

The schooner Gerald C is scheduled to sail for Nehalem this morning.

Voice Culture.

Mrs. R. E. Paslay, who recently opened a studio for instruction in singing, states that she has received a number of applications, but has so far accepted only a few pupils. Classes of three, entering together, have special advantages, as Mrs. Paslay is an exceptionally talented teacher, being a graduate of Oberlin conservatory. The studio is at her residence, 677 Exchange street. Mrs. Paslay, who is also a leading member of the Methodist church choir here, has a fine soprano voice with which she is winning her way into the hearts of local musical people.

CHICAGO IS QUIET

Believed Rioting is Over and Strike to End Soon.

POLICE FAVORED STRIKERS

Mayor Dunne and Sheriff Barrett Believe the Worst is Over and That the Police and Deputy Sheriff Will Be Able to Maintain Order.

Chicago, May 6.—Comparative quiet reigned in the downtown streets today for the first time since the beginning of the strike. A few scattered outbreaks but there was a complete absence of marching crowds that for days followed the wagons of the boycotted firms through the streets and seized every opportunity to attack drivers and wagon guards. Although no positive developments have been made as yet, there is a strong feeling, both on the part of the employers and strikers that the worst of the strike has passed and in a few days the streets will be cleared for traffic.

While fighting disappeared in the streets in a large measure, it broke out with renewed violence in war words between members of the Employers' Association and the labor leaders. Charges are also made against the police, it being said that from the outset they in many cases favored the strikers, refusing to arrest men when they were seen assaulting non-union men, and lost no opportunity to take the latter into custody whenever possible to find an excuse for so doing. It is said by members of the Employers' Association that captains and lieutenants of police have been directed in their duty in the suppression of disorder and charges have been filed against a number of them before the police trial board.

Mayor Dunne said tonight that he would appoint a commission to investigate the facts in dispute. He also expressed himself as confident that the serious part of the strike was over and there will be no more excitement in the streets. Sheriff Barrett expressed similar views, and declared that there would be no more fighting and with his deputies and the police the people could be protected.

THE OCCIDENT DINNER.

Announcement

to all who are suffering from

ECZEMA

or any form of skin disease. We are pleased to announce that we have arranged with the manufacturers of the

D. D. D. Prescription

to act as distributors for this city and vicinity of this well-known preparation, and will not only sell D. D. D. at retail at our store, but will supply druggists at wholesale prices.

This arrangement will enable those suffering from any torturing skin disease to procure D. D. D. at their nearest drug store. The importance of this announcement will be appreciated when it is remembered that D. D. D. is now generally recognized as the only sure specific for Eczema and allied skin diseases. We are specially pleased to make this announcement because from long experience we know the splendid results achieved by D. D. D. in the cure of these diseases.

It is a liquid for external application which immediately penetrates the skin, leaving no grease or discoloration, and no case of skin disease is too old or too virulent to submit readily to its germ-killing powers. A cure is guaranteed in every case, no matter how long the disease has tortured you.

You take no risk whatever in buying D. D. D. because the manufacturers absolutely guarantee to cure you, and if it fails the druggist will refund the purchase price.

This offer is made in good faith and there is no reason why any one should be longer tortured by skin diseases when a certain and guaranteed cure is within easy reach. We vouch for the genuineness of this guaranty.

We not only sell at retail, but also supply druggists at wholesale prices. D. D. D. costs but \$1.00 a bottle, and is guaranteed to cure or money refunded.

CHARLES D. ROGERS, Druggist.
